

Building Compliance

Brought to you by Liberty Risk Reduce

Liberty Specialty Markets understands the needs of its clients. We recognise that by using an online compliance solution, you can effectively manage your legislative and business critical compliance obligations across your portfolio.

The Cati Compliance online hub is available, for free, through the Liberty Risk Reduce Portal. The dedicated online hub houses everything compliance-related and displays all necessary documents. Cati allows those responsible for managing an organisation's compliance to keep on top of renewals and remedials by reducing the time spent manually reviewing expiry dates. Its digital interface helps users to streamline the entire compliance process.

What are the benefits?

- Total transparency of your compliance status using a simple traffic light system, so you can see straight away what action needs to be taken
- Peace of mind by ensuring you stay legal and compliant through full visibility of renewal dates and automated alerts meaning you should never miss a deadline
- Cati has a unique bespoke configuration option allowing you to add anything that is date-driven or evidence-based e.g. insurance or risk management documents
- Cati is a practical solution to remedial management with evidence-based reporting that clearly documents closed out actions and keeps control of follow up activities
- Documents are stored online in a secure central hub, so you can access them easily whenever you need them with the added benefit of an archive for all previous versions
- The system is intuitive and simple to use with clear set-up guidance and minimal ongoing maintenance, making it easily mobilised and user-friendly

How to sign up?

To move your company's building compliance onto a free digital platform, contact your Customer Relationship Manager or Risk Engineer. You can also reach the team at riskcontrol@libertyglobalgroup.com
